

# Top Line

The **TOP LINE** portable toilet represents an authentic advancement in the portable sanitation industry and is the result of years of manufacturing experience. **TOP LINE** is a blend of practical features and a captivating design that emphasizes Armal's attention to detail and to the requirements of the portable toilets operators. The use of the most sophisticated and hard-wearing materials transformed by high-tech production systems is combined with an engineering project that aims to reduce the maintenance costs related to the service of portable toilets, increase safety and generate a good price-quality ratio for the operator. The Top Line design has been specifically developed to achieve ultra smooth surfaces which are therefore easy to wash; the assembly of the walls with overlapping systems means that the rivets can be concealed, making cleaning more practical and safer and the inside of the cabin more refined and stylish.

## Pluses:

Highly stable door thanks to the heavy duty spring coil. The door has thicker areas in crucial points. A wind resistance device has been fitted to the door to ensure perfect closure when unlocked. Integrated hinges for padlock. The overlapping wall assembly system means that the rivets are hidden throughout for greater safety. The inner core enables rapid insertion of the lifting kit (optional). Curved corners for easy grip. Ventilator pipe connected to the waste tank specially shaped to the design of the walls to maximize space inside the portable toilet. Skids under the platform facilitate loading onto the vehicle bed. Comfortable and sturdy at the same time, it has an excellent size / weight ratio ensuring user comfort and easy handling for the portable toilet operator. The crevices molded into the upper hollow space of the door help preventing rainwater, sludge and dirty from stagnation.

## Integrated components:

Toilet paper holder holds 3 rolls with practical utility shelf and rod fitted with the fit prevention lock. Urinal with drain cover and lodging for the fluoride pellet which disinfects and perfumes the environment as well as preventing obstruction of the pipe. Coat/tool-belt hook.

## Technical Specifications:

Weight - Empty	78 kg
Tank Capacity	210 lt. approx.
Height of seat	51 cm
Inside, L/D/H	100 x 100 x 212 cm
Outside, L/D/H	108 x 108 x 233 cm

## Standard Colours

## Fragranced ScentWalls
